

9x19 Luger Frangible SX

6,4 g / 98 gr

The Frangible SX is specially developed for the dynamic training needs of police, military and security staff. The bullet is made from copper and polymer by injection molding. It is completely lead-free and fully recyclable. The Frangible SX is particularly suitable for tactical CQB/MOUT training, as the teams can train safely and effectively with maximum realism. The shooting distance can be reduced without risking being hit by backslashes or ricochets.

Application:

Perfect round for tactical CQB training.

Ideal fragmentation size minimizes ricochet and inhalation risk.

Lead-free bullet and primer reduce pollution.

All components are produced to perform seamlessly together for perfect functioning in all common types of weapons.
